

eWeb 2.0 I Use:

Tool	Description	Cost	Embed	Email	Social
Trailfire	Making trails is easy. Place a 'trail mark' (like a 'post-it' note) on a page with your comments. A trail mark can contain text, images, videos and other media types. When you give several marks the same 'trail name' you are forming your own navigation path on the web. We call this a 'Trail'.	Free	URL	Yes	Yes
Polldaddy	PollDaddy is an online tool, which allows you to create free polls and place them on your website, blog, MySpace, hi5, Friendster or Xanga account or anywhere online that you can paste a bit of JavaScript or Flash! 	Free	Java, Flash	Yes	Partial
SPresent	SPresent is free Web-based presentations application built with Flash. Create and edit high-quality Flash presentations online. You can send presentations via e-mail or publish on your web site or blog.	Free	Flash	Yes, but shows up as html	No
Slide	Make photo slide shows and share on a website	Free	Flash	No	Guest-book
Communitywalk	Create personal and community maps to show on the map, on your blog or website. Add photos, videos, comments, more.	Free	Java, Flash	Yes	Yes
